

4-Step Plan for Reduced Claim Legal Expenses

If you're trying to reduce costs in your organization and you aren't sure where to start, don't waste time spinning your wheels. With Bottomline's Feasibility Studies program, you're just steps away from a streamlined legal billing process and reduced claim legal costs. Here's how it works:

Step 1: You give us a sample of your invoices.

A small sample of your legal invoices is all we need, in addition to the current billing guidelines (if any) that you're using.

Step 2: Our expert bill reviewers conduct a thorough audit of your invoices.

Bottomline has a team of more than 40 highly-trained attorney auditors and bill review specialists. We review two million invoices worth four billion dollars every year. We will review your invoices using the same rigorous process we use to achieve compliance reductions of 8-15% for our expert bill review customers nationwide.

Step 3: You review the results.

Once your invoices have been carefully reviewed, you'll get a full, in-person report on the results.

You'll come away with:

- An in-depth Bill Analysis Report for each invoice that gives you a line-by-line account of all the deductions that were made, as well as the reason behind it.
- A written report that details:
 - Overall savings that have been achieved;
 - An analysis of the productivity;
 - An assessment of your firms' compliance with your guidelines and generally accepted billing principles; and
 - A projection of what your overall savings and ROI would be if an expert-led bill review program were undertaken for your organization.
- A sample of reports run with your own data, for insight into your legal spend.

There is **no cost** to conduct a Feasibility Study – and the benefit to your business could be huge!

Step 4: You start reducing cost and increasing efficiency.

Bottomline will take care of all the heavy lifting, eliminating all worry and stress from the bill review process - so you can take care of the more important aspects of your business.

Schedule your Feasibility Study today! Contact us at 603-501-5411.
